PROFILE

Product Designer and UX & Content Designer with experience designing user-focused digital experiences for global products across the automotive and e-commerce industries. Skilled in UX research, wireframing, prototyping, usability testing, content strategy, and localization for international markets. Experienced collaborating with Product Owners, engineers, and cross-functional teams to build intuitive, scalable, and data-informed experiences across web and mobile platforms.

PROFESSIONAL EXPERIENCE

- UX Product Content Designer

Jul 2025 – Present

General Software for Alibaba

 - Designed and optimized digital experiences for the AliExpress and Miravia seller platforms, improving usability and customer engagement.
 - Collaborated with Product Owners, designers, and international teams to define user and business needs across global products.
 - Built scalable information architecture and content systems focused on simplicity, accessibility, and user experience.
 - Conducted usability testing, audience research, and localization initiatives to enhance international user journeys.
 - Worked cross-functionally with teams across Europe and China in a fast-paced product environment.
- UX Product Content Designer

Feb 2024 – Jul 2025

Arttalo Tech for CUPRA

 - Created user-centred content and UX solutions for HMI infotainment systems across automotive digital products.
 - Partnered closely with UX, product, and development teams to deliver intuitive and consistent user experiences.
 - Managed localization and translation workflows across 33 languages, maintaining clarity and consistency across markets.
 - Conducted user testing and heuristic evaluations to improve usability and support product decision-making.
 - Contributed to end-to-end UX processes, from research and content structure to implementation reviews.
- UX Content Designer

Nov 2023 – Feb 2024

Pontia Tech

 - Developed website content, marketing copy, and digital communication aligned with user and business goals.
 - Used Google Analytics insights to improve campaign and content performance through data-driven decisions.
 - Collaborated with designers and stakeholders to optimize digital journeys and maintain content consistency.
